A career Data Governance and Systems professional with over 20 years in the Banking & Financial Services Industry, including 6 years spent at Bank of China (HK). I see myself as the bridge between complex IT infrastructure and business strategy; I don't just manage data—I protect its integrity and make it useful for decision-makers. My track record ranges from hardening legacy system security to achieving high data accuracy rate for major bank migrations.

Professional Experience

Sept 2023 - May 2025

IT Officer (Part-time), EFCC Waterloo Hill Church Limited

Managed the transition of legacy systems, moving the organization from aging infrastructure to modernized Enterprise Storage Solutions while ensuring Security & Governance remained the top priority. Bridged technical gaps by producing clear Technical Documentation and leading UAT for new CMS platforms, ensuring every deployment was reliable and user ready.

- Website Development
- Identity and Access Management
- UAT
- System Upgrade

July 2017– July 2023

Information Manager - Financial Department, Bank of China (HK) Limited

Governed the end-to-end Data Management lifecycle, enforcing Data Standardization across the group to ensure 100% compliance with local and overseas regulatory standards. Modernized Schema Design for the bank's MIS reporting platform. Optimized Information System Management by automating ETL.

- Data Management
- Data Analysing
- MIS

Oct 2003 – Dec 2016

Assistant Manager - Mortgage Insurance Department, The Hong Kong Mortgage Corporation Limited

Championed Change Management during the rollout of the Reverse Mortgage Programme, successfully managing the transition for both internal staff and external banking partners. Optimised Workflows by redesigning quality assurance practices, making the delivery of the Mortgage Insurance Programme more efficient and scalable. Optimised Workflows by redesigning quality assurance practices, making the delivery of the Mortgage Insurance Programme more efficient and scalable.

- Change Management
- Workflow Optimisation
